# KZ700B

## KILSEN KC700 series standard point detector base, black

### Product overview

The KZ700 is a 4 contact universal detector base for use with Kilsen KL700 series detectors. The KL700 supports the connection of a remote LED and allows for cable entry from behind as standard.

### Installation features and options

For surface mount applications where cable entry from the side is required, a surface mount accessory (S700) is available to allow for conduit entry of up to 25 mm from the side.

The KL700 has the ability to compensate for uneven mounting surfaces, and is also available in black for special applications in false ceilings.

### Details

- Universal base for conventional detectors
- Compensates for uneven surfaces
- Remote indicator contact available
- Variant in black also available
