DDI602-F2

Outdoor, Dual Technology detector, 10.587 GHz, selectable 10/20/30 m (33/66/98 ft)

Dual Technology motion sensor

DDI602 Outdoor Dual PIR Detector is an outdoor motion detector and alarm trigger that uses two independent passive infrared detectors plus a microwave sensor module. All three sensors must trigger to cause the detector to signal an alarm.

Easy and quick to install

Programmable options include a variable pulse count and a choice of three detection ranges: 10 m / 33 ft., 20 m / 66 ft., and 30 m / 98 ft. DDI602 includes jumpers that let you configure internal end-of-line (EOL) resistor values, when EOL resistors are required. Moreover, the integral dual-axis tilt sensor allows 180º of pan and 90º of tilt, which increases the speed of the outdoor installation and provides incredibly accurate aiming of the detection pattern.

Aesthetics and hidden sensor module

DDI602 design has a neat and professional appearance that gives no visible indication of the orientation of the detector head and totally hides the wiring.

Detaljer

- Electronic range setting: 10/20/30m
- Attractive aesthetics
- 10 to 70º detection angle
- 180º pan & 90º tilt for flexible install
- Sensor module is hidden
- Built in EOL resistors
- High dust & humidity resistance (IP55)
- 5 years warranty

DDI602-F2

Outdoor, Dual Technology detector, 10.587 GHz, selectable 10/20/30 m (33/66/98 ft)

Tekniska specifikationer

General

Technology	Dual
Application type	Wandmontage
Anti masking	No
Pet immune	No
Camera	No

Detection

Max. detection range	30 m
Microwave frequency (nom.)	10.587 GHz
Undercrawl protection	No
Alarm time	5 sek

Wired/wireless

Wired-wireless	Verdrahtet

Inputs/outputs

Relay configuration	Mehrere EOL-Werte

Physical

Colour	Silber
Material	Hochschlagfester ABS Kunststoff mit HDPE Abdeckung, UV stabilisiert
Mounting height	3 bis 6 m

Environmental

Environment	Draussen

Regulatory

Certification	INCERT
